WHAT THEY SAY

"Limetree Events' contribution to our annual Sports Retail Conference was fantastic. The team were a pleasure to work with and added something to our conference that set it apart from any other. I have had so many great comments about the soccer event and Gala Awards night. Limetree exceeded our expectations and I have no hesitation in recommending their services."

Libby Vernon - Business Manager – Footwear/Football/Licensed Sports Retailing - Super Retail Group

"Limetree Events continue to assist Mulpha Sanctuary Cove to deliver quality event services. Nothing is too difficult and their friendly team make them a pleasure to work with. In many cases they represent Mulpha independently and we have every faith that they will nail the brief. I highly recommend Limetree to anyone requiring professional event services, photography and marketing support."

Sue Thompson - General Manager Events & Marketing, Mulpha Sanctuary Cove

"I have worked with the team at Limetree Events for many years and they have continued to be my go to team for event, fundraising, sponsorship and promotional support. I love their work and highly recommend their services."

Natalie Cook - 5 Time Olympian & Gold Medallist

LIMETREE PROCESS

01. Brief – We take the time to listen to the client and truly understand their objectives. Having a full understanding of their desired outcomes, their budget and timelines we begin with the end in mind so we may develop a picture, with the client, of exactly what success will look like. With a clear success picture we work backwards and plan accordingly.

02. Plan – With the clients brief and objectives in mind we set about our creative process to design the event. Meticulously planning and documenting every detail so that every aspect is attended to and value add opportunities are maximised.

03. The Event – With the foundation laid in the planning phase this is the part that we love. The event or “Game Day” as we like to call it is where all the preparation unfolds to reveal memorable experiences that exceed guest expectations.

04. Report – Following the event we take the time to follow up with clients to report on event elements, budget and guest feedback so that data may be used in planning future event activities.
